(54) Title: AN OSTOMY APPLIANCE

(57) Abstract: The present invention relates to a disposable inner bag liner (16) for an ostomy appliance, the inner bag liner being (16) adhered to a release liner (2) prior to attachment to an outer receiving member (20). In particular the present invention relates to an alignment means (6) and to gripping means (6) of the release liner (2). Additionally the present invention relates to an ostomy appliance comprising the aforementioned inner bag liner with the gripping means (6) and/or the alignment means. Finally, the invention relates to a method of application of the inner bag liner (16).
